

One Software for all Tensiometers

OneAttention software for the [Theta and Theta Lite Optical Tensiometers](#) and the [Sigma 700/701 Force Tensiometers](#) combines the most intuitive user interface with a high level of functionality.

The all-inclusive software supplied with the instruments enables immediate access to all measurement capabilities with no need to purchase and install separate software modules.

It features an intuitive user interface, live analysis, configurable user groups and accounts and a preset liquid database. Any datapoint or groups of datapoints can be selected, transformed, plotted and analyzed. In-depth analysis takes seconds and data can be easily exported. The short video below will introduce you to the user-friendly software and show you easy implementation of customised features and functionality for special demands.

To learn more about the Theta range of Optical Tensiometers and Sigma range of Force tensiometers visit:

- [Theta Optical Tensiometer](#)
